TO MEET TOMORROW

Republicans Will Organize a Permanent Club.

PAPER BEING LIBERALLY SIGNED

It Will Be a Branch of the National League, and Some of the Most Earnest Workers in Town Are Numbered Among the Members.

There will be organized at city hall tomorrow night what is expected to be one of the crack political organizations of Columbiana county and eastern Ohio.

The movement was started some time ago, and has been moving along in a quiet way until a few days ago, when membership papers were placed in the hands of several prominent Republicans, who have since been using them to good advantage. As they passed around the city, good names have been added until a gathering of representative Republicans is expected at the meeting tomorrow evening. While it has been impossible to see all the members of the party in the city, all are invited to be present and take an active part in the work of organization. The object of the club will be to advocate, promote and maintain the principles of Republicanism as enunciated by the Republican party; to direct and interest in politics those who have been more or less indifferent to their political duties; to encourage attendance at the caucus or primary meetings, in order that honest and capable men may be nominated; to guard and defend the purity of the ballot box, and to perform such other work as may best conserve the interest of the Republican party nationally and locally, thereby exerting the most potent influence in behalf of good government. The club can not be used in any way to further the interest of any candidate for office previous to nomination, but shall reserve its force to be exerted in behalf of all candidates nominated by Republican conventions. The league to which it will be attached is a power already in the country, and since its organization eight years ago, has grown and waxed strong in power and influence. There are many such organizations in Ohio, and few cities with the population of Liverpool are without their Republican club. Whether permanent quarters will be obtained is one of the questions to be decided, but that course will likely be adopted since the national organization urges it strongly in every instance. It is founded on the rights and duties of the individual citizen, the solid corner stone of Republicanism, and aims to enlist all Republican forces as auxiliaries of the regular party organization. Its chief business, the members have decided, is to elect and not nominate candidates. There should be a large attendance of Republicans at city hall tomorrow evening.

DO YOU KNOW HIM?

A Liverpool Man Said To Be Lost In Pittsburgh.

The Pittsburgh Times of this morning has the following: "H. C. Waudby, a well known East Liverpool brick manufacturer, disappeared in Pittsburgh, August 26, and nothing has been heard of him since. He always carried large sums of money with him. August 26 he had \$700. Of this, \$150 was deposited in the Dollar Savings bank. After making the bank deposit he called at the office of H. Patterson & Co., at 541 Liberty street. Mr. Patterson says when Waudby entered his office he left two men standing outside. He said they were friends from East Liverpool, who he was going to show about the city. His friends and relatives think he has been foully dealt with by his supposed friends. He was never known to drink; was much attached to his family. Waudby was about 5 feet 10 inches in height, weighed about 170 pounds, and had dark brown hair. He has a wife and two children in East Liverpool."

A reporter called at the boarding house conducted on Broadway by Mrs. Waudby today, and there learned the story.

"Until a few months ago we lived happily together," she said. "My husband was in the brick business, and a kinder, better man to his family could not be found. He was dissatisfied with Liverpool, and wanted to get away saying that he would not spend another winter here. Then he began corresponding with a nursery firm, but afterward carried on negotiations with a man who advertises business houses with a stereopticon, and went to Pittsburgh to see him. He was there two days, but came home and said all arrangements were made, and they were to settle in Toledo. Then he sold off his effects, and had \$700 when he went back again. That was

two weeks ago, and we have heard nothing of him. He was in the best of spirits when he left, and certainly did not intend to stay away. We thought he might have gone to England, but inquiries developed that no man by that name had taken passage from Pittsburgh. We came here two years ago from Hastings, Pa., and have always lived happily. Any of the boarders will tell you that my husband is not a drinking man, nor did he ill treat us. He was always kind and considerate. I think he has been foully dealt with for the sake of that money."

SILVER LAKE QUARTET.

The Sweet Singers and Orator Hopkins Attract a Large Audience.

The Methodist Protestant church was crowded last night with an appreciative audience and standing room was at a premium. The service of song was simply delightful and was applauded to the echo. The Silver Lake quartet are famous the land over, and they won new laurels last evening. Orator Hopkins is a pleasing, earnest talker and carries his audience with him. He was frequently applauded last night. He backs his opinions with facts, argument, reason and good common sense, and does not deal out superabundant abuse upon the heads of those who differ with him from a political standpoint. Reverend Taggart opened the meeting with an appropriate prayer and pronounced the benediction at the close of the service. The pastor, Reverend Whitehead, made a neat and happy speech preparatory to taking up the evening "offering," no admission being charged. Service will be held again tonight and you will have another opportunity to hear the sweet singers. You will do well to go early, if you desire a seat.

THEY RAN AWAY.

Two Liverpool Boys Are Lost in Pittsburgh.

Dr. J. C. Taggart was in Pittsburgh yesterday searching for the children of Mr. and Mrs. Edward Hill, deceased, who are lost. They are two boys, Edward, aged 10, and James, seven, and were taken to the United Presbyterian orphan asylum, in Allegheny, a few weeks ago. Last Tuesday, instead of going to the public school as usual, they ran off, since which time nothing has been heard of them. They were homesick when first taken to the asylum, but the matron believed they had recovered from that, and was surprised when she learned that they had not been in school. A thorough search was made for the boys, but they have not yet been found. It is thought they would try to make their way to this city or the home of their aunt in Wellsville, and a careful watch is being kept.

A RUINED TIRE.

Charley Larkins Ran Over a Bottle in the Street.

Charley Larkins, known to almost every one in the city, was the maddest man in town last night, and if he had laid his hands on the people who throw glass in the streets there would have been bleeding forms for the coroner to consider. Having purchased a new set of tires, and put them on his wheel, he went for a spin, but had covered only a few blocks when he ran over a bottle, and now he will not ride any more until he gets more tires. Both tires are cut to pieces, and a total wreck. The people who throw glass in the street should remember there is an ordinance against it, and it is only a question of time until some one is arrested and punished. If all wheelmen would report glass when seen on the streets, the practice would be stopped.

A HAPPY COUNCILMAN.

Mr. Chellis Has a Phenomenal Cherry Tree.

Councilman Chellis has in his yard on Bank street a natural curiosity in the form of a cherry tree that refuses to realize that summer is over. In spite of the fact that it has borne one crop of cherries this year, and good ones they were, according to the councilman, it has come out again in full bloom, the flowers being as pretty blossoms as were ever seen on a fruit tree. A number of other fruit trees in the city have blossomed the past few days, among them being several peach trees.

THE WIFE OF A JUDGE.

Mrs. Reed, of West Point, Died Last Night.

Mrs. Reed, the widow of Judge Reed, who was the first probate judge of the county, died last night at her home near West Point. The lady has been ill for some time, and her death has been expected for weeks. She was a good Christian woman, highly intellectual, and known to persons in every part of the county.

THEY ALL COME BACK

Methodists Will Have the Same Ministers.

A LONG CONFERENCE ENDED

It Required a Great Deal of Time to Make the Selections, but They Are Finally Settled Upon—Wellsville Gets Sylvester Hart—The Rest of the District.

After a long struggle with the list, Bishop Vincent and his cabinet decided last night upon the appointments for the East Ohio conference of the Methodist Episcopal church.

There were more ministers than charges in the conference, and the cabinet had much trouble in properly locating the different applicants. Young men seemed to be in demand everywhere, and the older ministers were put to one side, but a close scrutiny of the list and a careful consideration of the facts in every case caused the publication of the following:

Bloomington, D. W. Knight; Bridgeport, W. H. Dickerson; Bridgeport circuit, R. S. Strahl; Brilliant, to be supplied; East Liverpool, First church, J. M. Huston; Second church, R. F. Sears; East Springfield, T. H. Taylor; Empire, S. B. Salmon; Hammondsville, J. R. Young; Harlem Springs, J. W. Micher; Irondale, W. J. Powell; Martin's Ferry, J. W. Robins; Mingo, J. N. Barrett; Richmond, J. S. Eaton; Sallineville, Finley and Thompson, P. C. Anderson; First church, Lewis Paine; Hamline, R. B. Pope; Toronto, J. S. Secrest; Warren, J. C. Hollingshead; Wellsville, Sylvester Hart; Minersville, J. C. Smith.

This returns Doctor Huston to the First church and Reverend Sears to the Second church of this city. The gentlemen are popular with their congregations, and will doubtless make a strong effort to increase their respective charges in membership and finances. Doctor Stewart will continue as the presiding elder with his post-office at Steubenville, and the other presiding elders chosen this year are Dr. J. E. Fisher, of the Akron district; Dr. I. H. Rader, New Philadelphia district; Dr. A. N. Croft, Youngstown district. Doctor Locke goes to Cadiz.

"In the making up of the districts of the conference," said Doctor Huston, who returned today from Canton, "there was a most strange proceeding. Owing to the dissatisfaction with the presiding elder of the Cleveland district because of his impaired hearing some of the churches of that district were thrown into the Akron district, so these presiding elders will cross each other's paths many times. It is a question with many whether the work will be sacrificed for the man, and it is predicted that this arrangement will reflect upon the wisdom of the presiding bishop, the hero of Chautauqua."

"It is an exceptional thing in Methodism, something I never heard of before, this going into a district, and taking the best appointments. Taken all in all, we were very much pleased with our treatment in Canton. The only trouble was that there were more men than places. The bishop came with a lot of men in his pocket, but some of them did not get in. Doctor Bennett had hard work making it, but eventually he was given the First church in Akron. Reverend Edmunds, of New Castle, wanted to get into this district but he got no appointment. They offered Reverend Sears a charge in New York near Chautauqua, but he decided to return to East End. When the report of the Woman's Foreign Missionary society was read at the conference it affirmed that the great work of the society need not interfere with the work of the pastor, but I arose and told them that I could affirm more for when I had failed in collection the society of this church came to my rescue after subscribing over \$600."

A LONG SEPARATION.

Mrs. Curby and Her Brother Had Not Met for 60 Years.

After the afternoon train had passed out of the passenger station yesterday afternoon, an old man stood on the platform and looked about as though he expected some one to walk up and shake hands. He was approached by a reporter, and said that his name was John Stoddart, and his home in Wilmington, Del. He had come here for the purpose of visiting his sister, Mrs. Elizabeth Curby, who he has not seen for 60 years. At the residence of Mrs. Curby on College street, last evening, it was learned that although almost overcome with joy after seeing each other after so long a separation, Mr. Stoddart was able to recognize his sister. They are only surviving members of a family of 11 children, and Mrs. Curby has been living in

Ohio for 60 years, having come to this city in 1862. She is a widow, and the mother of Pierce Curby, the well known manager of the Akron pottery. About 30 years ago, Mr. Stoddart saw his nephew in the east, and will go and see him at Akron before returning to Wilmington. The gentleman is an employee of the Pennsylvania company, having been one of its faithful servants for many years.

A DISAPPOINTMENT.

Miss McIntosh Will Not Sing in This City.

When it was announced that Miss McIntosh, the celebrated singer who has many friends in this city, would come from Europe and sing at Carnegie hall in Allegheny, the Ladies' auxiliary of the Young Men's Christian association made every effort to have the lady sing at a concert they would conduct in this city. They cherished the fond hope for a time, but now comes the word that Miss McIntosh will only be in the city a short time as the guest of Mr. and Mrs. Homer Laughlin, and her engagements so crowd upon each other that it will be impossible for her to sing in public. The disappointment is as much for the general public as for the ladies of the auxiliary.

THE HAIR FLEW.

Two Women Settle a Difficulty in True Feminine Style.

Peake's point society was rent asunder the other day by the most sensational happening it has known in numerous months, the affair being a battle between two women well known in that part of town. The cause of the quarrel is unknown, but the fight was in plain sight of the public, and hair was scattered far and wide, while loud cuffs and knocks sounded in the air. The men quailed, but seemingly preferred to let the women do the hard work. The battle extended over several hours, the women pausing occasionally to rest.

NOT NEAR TOWN.

Pugilist Murray Says the Fight Will Be in Ten Days.

Peter Murray, who is training hard for his coming fight with Ed Riley, told a reporter that he believed he could whip the other man with ease, and the fight would surely take place within 10 days. He refused to divulge the place where the fight is to be pulled off, but stated that it would not be in this vicinity. If the pugilist did not allow his care to get the better of his veracity in that assertion, there are numerous young sports in town who can prepare themselves for a disappointment as they have all arranged or think they have to see the fight.

AFTER MONEY.

A Heavy Damage Suit Filed in Common Pleas.

SPECIAL TO THE NEWS REVIEW.
LISBON, Sept. 24.—An accident at Stewart's saw mill near Long's crossing last spring was the cause of a damage suit filed today. John Detwiler lost an arm at the mill because he was sent into the pit, below the saw, to remove a chain. He slipped, and throwing his arm against the rapidly revolving saw was crippled for life. W. and M. Walters who operated the mill ordered him to do the dangerous work, and he sues them for \$10,000 because the saw was allowed to run while he was in the place of danger.

NO TRACE.

The Baggage of the Dead Stranger Is No Identification.

Trustee Lloyd has made a careful examination of the baggage of Mrs. White, who died at the Hotel Grand yesterday morning, but can find nothing new regarding her. He thinks it will require a month before he can hear from the names found among her papers. The funeral took place yesterday afternoon, and was attended by some of the kind women who did all they could while Mrs. White lived. They were taken to the cemetery in a carriage provided by Liverman Frank Dickey. Doctor Lee conducted the services.

ANOTHER TRIAL.

The McGregor Case Has Another Whirl Tomorrow.

SPECIAL TO THE NEWS REVIEW.
LISBON, Sept. 24.—Circuit court convenes here this afternoon, and the only matter of importance to be considered is the application for a new trial for Jesse McGregor on the ground that there was not sufficient evidence before the court that sent him to Columbus for life. Attorney Anderson, of Youngstown, will be here this evening, and the motion will be argued tomorrow morning.

POLICE ARE STILL BUSY

A Few Drunks on the Mayor's Docket.

SOME SORRY SUNDAY SALOONISTS

Also Appear Before the Chief Magistrate and Tell Their Tales—Sullivan Will Stand Trial, But Webber Paid \$50 and Costs.

Police court is filled with echoes of the big business done on Saturday and Sunday, but Mayor Gilbert is having trouble in clearing his docket because of new cases being added.

Saloonist Webber called around and wisely pleaded guilty to the charge of keeping open on Sunday paying for the act \$50 and costs.

An East End man who gave the name of Gill caused a commotion in the upper part of the city this morning, and was eventually landed at city hall. Like other men who have met the same fate he was engaged in abusing his wife because he was drunk enough to be disorderly. Officer Meador was called, and sent in a patrol alarm. He was allowed to regain his senses before being heard.

Freeman French is still behind the bars, and the mayor thinks he will keep him there until he can secure a few more victims for the works. An elaborate calculation made by the mayor this morning shows that French has 116 days to serve at Canton, provided he cannot secure the \$50 which he was fined yesterday, and, with good behavior, he can be released in 110 days. The prospect is not a cheerful one for French, as his friends manifest no disposition to lend a helping hand. His intimacy with Birdie Pinkerton is a standing joke at city hall, as the woman will not stay away from the place. The pair had their pictures taken the other day, and Birdie proudly exhibited one until an officer ordered her to behave herself under penalty of heavy sentence to Canton. She was at the station to see French depart this morning, and waited patiently for his appearance.

Friends of Charles McGovern called on the mayor last evening and paying \$10 had the man released thus saving him a second time from the works. McGovern is a good workman and makes many friends when he is sober.

Arthur Hancock, a Smoky Row saloonist, declared to Mayor Gilbert last night that he was not guilty of selling liquor on Sunday. The date of hearing has not yet been set, but it will be this week.

Sidney Burroughs the youth who was arrested on Franklin street is still in jail, no one having appeared to settle that little account of \$7.50 which he owes.

Saloonist Sullivan, of lower Sixth street, was among the victims of the police Sunday. He is charged with selling to a good sized crowd whose thirst caused them to prevail upon him to great length. He appeared at city hall last night and pleaded not guilty, and the hearing was set for this afternoon. It was postponed, however, until Saturday morning at 9 o'clock when there will no doubt be an interesting trial. The charge is brought under the state law.

Solicitor Clark is preparing for the rush of business which the saloonists furnish by their connection with the authorities.

H. Smith was acting in a disorderly manner in the East End last night, and was captured today. He paid a fine of \$6.00.

Cliff Dawson plead guilty and was fined \$15. He will go to the workhouse unless some one appears with cash to spare. Joe Keenan decided to plead not guilty, and is in jail awaiting a trial.

NOT GUILTY.

That Is What Grant Fastbinder Told the Mayor.

Grant Fastbinder, who cut Rit Meador with a razor in Poker Anderson's hotel on Sunday afternoon, was brought from New Cumberland by Chief Gill yesterday afternoon and placed in jail. He signified that he wanted J. H. Brookes to defend him, and the two held a long conference at city hall this morning. Fastbinder was arraigned a short time afterward, and declared that he was not guilty of cutting with intent to kill. In default of bail he was sent down the hall to await the time set for hearing. Doctor Taylor says that Meador is much better this afternoon, although still very sore.

Thomas Won.

Thomas Humphries won his case against Patrick Costelow, although the pile of gold he expected to receive with the verdict did not come. When Squire Morley rendered his decision he gave him \$17.31.

WHEN Thanksgiving comes the Democrats will have little to be thankful for, if present indications count for anything.

THE exhibition which Governor Waite gave in Canton is ample proof that he has more wheels in his head than some people have in their threshing machines.

CUBA can never be free without the aid of Uncle Sam, and if President Cleveland ever expects to aid the unhappy island he can select no better time than the present.

If the Pittsburg officials do not soon manifest a disposition to investigate and cease talking, the public will believe that they fear the police force and its influence.

No wonder the English laugh at American politics. Boss Croker spends the summer in Britain, comes home to pull a few wires in a convention, and announces that he will return to England within a few weeks.

If Cleveland waits until congress meets before revising his financial policy, he can rest assured that the country will be lifted from the depths—Republicans are too patriotic to let the nation suffer, even though it makes good campaign material.

CAMPAIGN METHODS.

A special from Van Wert to the Toledo Blade throws some light on the campaign methods being used by Colonel Brice and his gang to gain him victory next November.

"Tried and trusted men who have been in the employ of the road for years have been 'let out' on pretexts to give room for men who could assist Brice. It was not noted until now that with scarcely an exception the men are all Republicans. Among the men 'let out' during the past two months are: Conductor Charles Welsh, a Republican, who has been in the employ of the road for 15 years; Conductor George Redrup, Republican, been employed about 10 years; Baggageman C. B. Pearson, Republican, in the employ of the road for five years; Hugh Allen, baggageman, employed for three years; Elmer Conn, bridge constructor, a Republican, been employed for three or four years, and 'there are others.' Brice's attempt to steal the state by these schemes will be met with bitterness by the people here. They will rise in their might this fall and stamp in the earth such corrupt and detestable political methods."

This is in line with the charge made by the Blade last week that Brice would work his railroads for all that was in them, and his employees would be expected to vote for him to a man.

Sipans Tabules cure colic.

CLAY CAN'T BE FOUND.

Ironton's Defaulting County Ex-Treasurer Missing.

HIS NON-ARREST A SENSATION.

Much Surprise at the Action of the County Commissioners in Letting Him Get Away—He Went East Thursday Over the Norfolk and Western.

IRONTON, O., Sept. 24.—Ex-Country Treasurer, M. G. Clay, who has been found a defaulter for \$25,000 is not to be found. He left the city Thursday night over the Norfolk and Western going east, and since then nothing has been heard of him.

The action of the county commissioners in not causing his arrest has created a sensation.

FOR DEEP WATERWAYS.

Delegates in Cleveland For the Convention Opening This Afternoon.

CLEVELAND, Sept. 24.—Many prominent members of the International Deep Waterways association are here this morning to attend the annual convention, which commences this afternoon. Hon. James Fisher of Manitoba, a member of the Provincial parliament and an ardent advocate of deep waterways and reciprocity, in speaking of the deep water and canal agitation said:

"We have on this continent the finest body of inland waters in the world, and I believe that there should be built such deep waterways as will enable us to freely enjoy our natural advantages. I believe that the two great nations should unite in constructing these waterways, which will be of immense benefit to both the United States and Canada."

Cleveland Banks Won't Help.

CLEVELAND, Sept. 24.—The proposition of the Central National bank that 900 in gold into the national treasury and receive in return legal tender, has been considered by the Clearing House association. It was decided not to take any such action on the ground that there did not appear to be any real necessity for it and that it might arouse apprehension among people not thoroughly familiar with the financial situation.

Schoch's Victim Still Alive.

DAYTON, O., Sept. 24.—John W. Peacock, who was shot by William Schoch, a discharged employe, is still living, and, although his life is hanging in the balance, increased hopes are entertained for his recovery. The fact that the ball passed entirely through his body obviated the necessity for probing, but the fact that his right lung is pierced makes his recovery exceedingly doubtful. Schoch manifests entire unconcern as to the fate of his victim.

Whitley Plant to Be Rehabilitated.

SPRINGFIELD, O., Sept. 24.—A mammoth deal in the agricultural implement interests of Springfield is about to be made, which will be as important to this city as the capitalization of the Procter and Gamble company was to Cincinnati. This will be the re-establishing of the vast Whitley interests, with a capital of \$2,300,000, of which over \$2,000,000 will be British gold.

Cleveland Wants Her Lake Front.

CLEVELAND, Sept. 24.—The city has taken steps to recover possession of the lake front, which is held by the railroad. At the meeting of the board of control a resolution was adopted directing that a number of streets which are supposed to extend to the lake, but do not, be opened to the water's edge. This, it is expected, will bring the matter to a speedy issue in the courts.

Got Money by False Pretenses.

CLEVELAND, Sept. 24.—Arthur S. Burrell, aged 20, has been arrested on the charge of obtaining money by false pretenses. He rented a small store, put in a few cases of goods and advertised the concern as the Grocers' Supply company. He succeeded in obtaining a quantity of material, none of which he paid for, and also issued a number of checks which are not good.

Miss Vanderbilt's Duke.

NIAGARA FALLS, Sept. 24.—The Duke of Marlborough, who is to marry Miss Consuelo Vanderbilt, has arrived here in the private car of Sir Charles Rivers Wilson.

SMALL OHIO HAPPENINGS.

An unknown person at Marion has a mania for poisoning dogs. The schools at Marion dismissed half a day on account of hot weather there.

Ada Lawson of Springfield took a dose of poison on account of a quarrel with her lover and died.

An athletic club has been organized at Marion, composed of the high school pupils, with a complete outfit for a gymnasium.

Harry Turner, aged 25, residing with his mother in Hamilton, returned home drunk, and it is alleged struck his mother in the face with his fist, knocking her down. He was arrested.

Pat Higgins, a tramp, supposed to be from Louisville, was found unconscious near the Hocking Valley railroad bridge, at Columbus. He had a deep wound in his head, which it is supposed was inflicted by a blow from a piece of railroad iron.

William Lang and Albert Bauman, two young men of Columbus, are under arrest, charged with assault to kill. They nearly ran over Jacob Seidel, and when he remonstrated it is alleged they jumped from their buggy and stoned him. His skull was fractured and it is thought he will die.

George Zimmerman of Florence street, Springfield, while at Warner, Bushnell & Glessner's, fell from a ladder, and striking a bar of iron broke three ribs and sustained, it is feared, fatal internal injuries. He was carried home and a physician called, who said Zimmerman would have a hard time to pull through.

Secretary Flower of the deep waterways convention, to be held at Cleveland, received word to the effect that Canada was willing to co-operate with the United States under the Vilas law, which provided for the appointment of a railroad commission to investigate and report upon the feasibility of constructing a deep canal between the great lakes and the sea.

OUR POSTOFFICE AFFAIRS.

Maxwell Gives Some Interesting Information in His Annual Report.

WASHINGTON, Sept. 24.—The annual report of Fourth Assistant Postmaster General Maxwell shows that the number of postoffices in operation in the United States on July 30, 1895, was 70,064. Of these 69,560 were fourth-class offices and 3,504 presidential, being an increase over the last fiscal year of 259. During the year 2,432 postoffices were established and 2,163 discontinued. The total number of appointments for the year was 13,142, and the total number of cases acted upon 17,688. The number of changes made on account of deaths of postmasters was 769.

During the year the greatest increase in the number of postoffices was in Oklahoma—69. Virginia follows with 66, the Indian Territory with 60. Nineteen states show a decrease in the number of postoffices, the greatest losses occurring in Kansas—53, South Carolina losing 44, and Iowa and West Virginia 38 each. Fifteen other states show a loss of from 2 to 37 each.

The total number of cases disposed of by the division of postoffice inspectors during the past year aggregated 96,951, an increase of 2,581. The number of complaints received relating to registered mail was 5,280. Only 18 complaints were received of carelessness in the handling of this matter by postal employes. The total number of complaints affecting the registered mail received during the year was less by 646 than the number for the previous fiscal year. 13,933,856 pieces of registered mail were handled with the loss of only one piece in every 21,305. Fifty-six thousand five hundred and forty-six complaints affecting the ordinary mail were received during the year; 31,849 referring to letters and 27,697 to packages. This shows an increase of 2,669 over last year.

A gratifying decrease in the number of postoffice burglaries is noted, but highway robbery of the mails has increased somewhat. Train robbers have grown more bold and now do not hesitate to ply their vocation in the older states and near large cities, one of the most daring of last years train robberies, the Aquia Creek case, having been committed with a few miles of the city of Washington.

During the year there were 14,844 complaints received affecting foreign mail matters. These comprised 9,435 cases relating to registered matter, 5,294 pertaining to ordinary matter and 205 of a miscellaneous character.

It is believed the convention will serve to revive interest and infuse new life into the Irish cause both in America and Great Britain.

A BLOODY BATTLE.
Spanish Soldiers Badly Whipped by Cuban Patriots.

OVER 300 SPANIARDS KILLED.

The Cuban Loss Was 40 Men Killed and Wounded - Rebels Used Dynamite Bombs With Terrible Effect - Mass Elected President of the New Republic.

NEW YORK, Sept. 24.—News of a battle, in which the Spanish were defeated by the Cubans and lost 300 men has been received by President Palma. In a letter written Sept. 14, by General Rovira, a Spanish private who deserted to the Cuban ranks at Pera Lazo, when Campos was defeated. In a later engagement Rovira was captured by the Spanish, court-martialed and sentenced to receive 400 lashes and to be shot. The sentence was carried out while Rovira was shouting for Cuban liberty. The Spaniards were greatly incensed against him, as he had killed three of their men before being captured.

The letter says that on Aug. 13 Macao heard that 1,200 men, one battalion of the Spanish army, were marching on him. Macao mounted his horse, and from the mountain of Santa Maria viewed the enemy's position. He ordered eight of his men to keep up firing from ambuscade to deceive the Spaniards, and meanwhile he had word sent to his brother, General Antonio Macao. General Jose Macao fortified his few men in a plantation house near a hospital. He wished to guard the right side of the road leading to Baccano, which skirted the hospital. The Spanish were slowly closing in on him when General Cebreo and a Cuban column came to his relief and made the enemy evacuate their position.

A hot engagement followed in which the Spanish regained their position, but were unable to hold it long, as General Antonio Macao suddenly appeared on the scene, and with Cebreo and Colonel Muenit, succeeded in wresting it from the Spaniards. The Spanish now made a brilliant charge and for the third time managed to secure the position, but in the engagement the Spanish captain of artillery was mortally wounded and they slowly withdrew the Cubans fighting their back. This battle lasted from 5 o'clock a. m. to 1 o'clock p. m. It was resumed in the early afternoon.

General Antonio Macao cleverly turned the Spanish column and gained the pass of Baccano. He then massed his troops before the Spanish vanguard while General Jose Macao got his men in the rear. A very desperate encounter ensued. It raged until the dawn of the next day, Sept. 1. The Spaniards then commenced to retreat until they reached the Iguala field, where they were able to use their cavalry, which was impossible on the mountains of Santa Marcia. They did not gain any advantage, however, and after burning their provisions they continued to retreat to mountains, which place they entered in scattered groups. The Cubans had no cavalry, but made effective use of dynamite bombs, which, the letter states, struck terror to the enemy.

In the engagement the Cubans lost 40 men wounded and killed. The Spaniards lost over 300 men, 40 horses and a large store of provisions and munitions of war.

A Tampa special says: Letters received by prominent Cuban leaders here state that on the 10th inst. a constitutional convention was held at Najasa, at which Bartola Masso was elected president of the Cuban republic; Marquis of Santa Lucia, minister of interior; Tomas Estrada Palma, representative of the government in the exterior, and Maximo Gomez, general-in-chief.

THE A. P. A. IN POLITICS

Vice President Jackson Boasts of Its Growing Power.

WILL CONTROL NEXT ELECTION.

One of the Great Parties Must Knock Under to the Organization—Any Bid For the Catholic Vote, He Says, Means the Order's Opposition.

KANSAS CITY, Sept. 24.—Judge J. H. Jackson of Fort Worth, Tex., national vice president of the American Protective association, is in this city. When asked about the condition of the A. P. A. he said:

"The order is growing rapidly in numbers. We have in round numbers 3,000,000 members. In California we have 200,000, and in the older states farther east the number of members we have is enormous and growing daily."

Continuing, Mr. Jackson said: "We are getting ready to surprise Missourians. Missouri is well organized, but we would rather show you by our votes than tell you how big a vote we have."

"Will the order take part in the next national campaign?" "It certainly will do so and it will go in to win. On Oct. 14 there will be a convention at St. Louis, attended by 96 delegates, two from each state and some of four officers and at that time a very strong committee will be appointed."

"It will be the duty of that committee to lay before each political party our principles and explain to each our position. The committee will present our platform. We will demand recognition, but each party on record and then determine what we shall do. You can depend on this: We won't vote with a party that condemns our principles and we won't support any party that makes a bid for the Catholic vote. When they have acted as we wish we shall act in unison."

"Do you expect, then, to control the next election?" "We do. The party we vote with will win. We are not going in as a political party, but we have principles to carry out, and it is to advance them that we shall vote."

"We will have a hand in the elections in every state in the Union. Our method of dealing with the parties in each state will be much the same as our method in city politics."

Consuls Under Civil Service.
WASHINGTON, Sept. 24.—The president, by an executive order, has extended the civil service system in a modified form to all consular officers whose compensation directly and through fees range from \$1,000 to \$2,500. This will include about one half of the total number of consuls who receive more than \$1,000. This change has been gained by reviving in substance an old order of 1873. Vacancies in the service will be filled hereafter by transfer or promotion, by appointment of qualified persons formerly in the employ of the state department and by appointment of persons selected by the president after passing a non-competitive examination.

Bad Testimony Against Durrant.
SAN FRANCISCO, Sept. 24.—The prosecution in the Durrant case now has its case substantially before the jury and all that the district attorney will now introduce is corroborative testimony. Adolph Oppenheim, the broker, who stated that Durrant had tried to pawn a ring identified by Oppenheim as belonging to Blanche Lamont, was further cross examined and stuck to his story. W. J. Phillips, a cigar manufacturer, testified that he had seen Durrant come out of Oppenheim's store in the early part of last April.

Hanlon a Little Suspicious.
BALTIMORE, Sept. 24.—Manager Hanlon says that he is confident his team will win the pennant. He expects to capture three games from the Phillies and to lose not more than two, if any, to New York. He does not believe the western clubs are throwing games to Cleveland, but thinks Pittsburgh might have used some other pitcher on Saturday besides Moran, who had pitched on the Thursday before.

STAMFORD, Conn., Sept. 24.—Mrs. Henry L. Dudley, a young mulatto woman, has been murdered by Mack Simpkins, a colored plumber, who afterward ended his own life by cutting his throat with a razor.

George Buckley got judgment in the court of Squire Morley yesterday afternoon for \$27 against Mary H. and John Hanson. It was the balance of an account.

The Audubon club will hold another road race on Friday of this week. A large number of entries are expected and the race will be hotly contested.

Will Swaney is carrying his arm in a sling, because he was heating some camphor over a gas jet yesterday afternoon, and the vessel containing it tipped over.

Mollie Matthews, a domestic employed at the Thompson house, was so badly hurt while lifting a tub of water this morning that she was compelled to take to her bed and a physician was called.

"How is the early closing movement?" was asked a prominent business man last night. "If the clerks can stand it and the other merchants don't object I guess I won't," was the answer.

Orchards along the river are hanging full of apples, and farmers are patiently waiting for a rise in the river so they can ship them to market. They say they cannot afford to use the railroad, as fruit is so low in price.

Reverend Green, Frank White and daughter, Miss Pearl Searight, Miss Lou Hanley, Mrs. Chambers and Edie Ramsey made up a party of East End people who are attending the Christian Endeavor convention at Richmond.

East End people are expressing indignation in unmeasured terms because they have heard that an aged member of the community will be taken to the infirmary, when members of his own family are able to care for him.

Jim Penny entertained a large crowd of people at the corner of Sixth and West Market with a speech on the American flag. Jim had his usual jag with him and was hurried out of the way when the police were seen coming.

Two school boys helped themselves liberally to apples in a wagon on Fifth street last evening, and one of them was caught by the driver, who amused the few witnesses by cutting the youngster several times with the long lash of his whip.

Residents of the Calcutta road were annoyed beyond measure last night by the howlings and howlings of a few drunks in a buggy. It required a long time for the pair to drive up the hill, and as they howled at every step, they made night hideous.

Melville Flowers, of Broadway, met with a painful mishap yesterday afternoon when he was so unfortunate as to step on a sharp nail. The nail pierced his shoe and ran into his foot fully an inch, causing a wound that will give him enough trouble for the next few days.

The cold wave came as promised, but not with the severity prophesied by the men who make the weather. There were few if any overcoats seen on the streets of the city last night, but the mercury ceased its flight heavenward, and again came down to earth, making life bearable.

The Cleveland and Pittsburgh are making an extensive fill between the lower depot and McGregor's mill in Wellsville, and intend putting a track there before winter comes. The impression is gaining ground in Wellsville that the company are gobbling up the river front at a rapid rate.

Colonel and Mrs. John N. Taylor returned last evening from the south, where they have been attending the dedication exercises at Chicamauga and seeing the Atlanta exposition. They were in the party of Governor McKinley, and throughout the entire trip saw the distinguished Ohioan treated almost as though he was even now the president.

Mr. Cochran, of Apollo, Pa., was in town yesterday, having been in Wellsville, where he called on Wolf & Whittacre, the inventors of the electric separator. The gentleman is interested in a company now being formed in Apollo, and if they can secure the right for all of Pennsylvania they will manufacture the separator and sell it in that state. The concern is also talking of starting a white granite pottery.

What are Featherbone Corsets?

How are they different from other corsets. These are questions frequently asked us. To explain this correctly we must first state that the Featherbone corset people have a patent process of transforming the quills of feathers into an article for boning corsets that has no equal. It is not affected by dampness or perspiration; is soft and pliable. You cannot break it. It will stand washing and takes readily to your form. The corset needs no breaking in, and with each one sold the manufacturers give a written guarantee that the corset will be satisfactory or your money will be refunded.

WHY NOT

Does every man, woman and child endeavor to do the best they possibly can for themselves? It is human nature. Just the same reason that when a man or boy needs a new suit of clothes he strikes for our store. He does.

HE WHIPPED HIS WIFE

And Then Brutally Knocked Her Down.

HIS HORSE WAS IN IT TOO

Residents of McKinnon Addition Think They Have a Good Case For the Humane Society—The Drunken Husband May Get a Dose of His Own Medicine.

Unless there is a radical change in the actions of a man residing in McKinnon addition, there will likely be a case of tar and feathers to chronicle in this town within the next few weeks.

Responsible residents of that portion of the city say that they have among them a man who must change his mode of living. Frequently he goes home in a beastly state of intoxication and nothing affords him more pleasure than to abuse his wife and ill treat her in a brutal manner. Last night he went home in his usual drunken way, and accusing his wife of some trivial offense, raised his hand and struck her a blow so hard that she staggered and fell to the floor. Not satisfied with that he got a shoe and beat her until the poor woman almost fainted from pain and fright. Then he went to the stable, and bringing out his horse began to belabor it with a heavy whip. At length he tired of this amusement and returned to the house, where he behaved himself for the remainder of the evening. Some of the best citizens in that part of town, in speaking of the matter to a reporter, said last night that they would give the fellow another chance; he has been warned, and if the Humane society could not act in the matter, he would receive a call from some of his neighbors.

Weimer Won.

The case of Robert Weimer against Gaston & Wilson dragged its weary length at city hall yesterday evening, and brought out many facts about milk.

Weimer is a dairyman at Kensington, and he sued to recover the value of a shipment of milk, the defendants refusing to pay because the fluid was sour when it reached them. He claimed that he kept it packed in ice until it was shipped, but the thunder might have soured it, whereupon Attorney Brookes wanted to know if it thundered every day in Kensington, and the memory of the dairyman forsook him. He had several witnesses to strengthen his side of the case, and the defense fought hard for victory. Squire Rose and the jury sat on the case, and a verdict was not returned until after midnight when the plaintiff got judgment for \$47.62.

The replevin case of J. N. Baxter against L. T. Conant has been indefinitely continued in the court of Squire Morley because of the illness of the plaintiff. It involves the equipment of a barber shop.

A Knowing Dog.

A well known doctor is now of the opinion that some dogs know more than some people. When he came to town a dog belonging to Rev Foutts made friends with him, and has loitered about his office ever since. The other day the dog came in the shop dragging on one front foot and whining with pain while a trail of blood showed that the paw had been almost severed. The knowing dog put the injured paw upon the doctor's knee as if to say "Here's a case for you," and his wounds were attended to.

Only a Few Cases.

Wheeling is breathing easier these days and all the Ohio river towns that have been in danger need fear smallpox no longer. Doctor Ogden is possessed of the information today that there are only three cases in Wheeling. A dozen houses are quarantined, but the people are all convalescent, and the danger is over. No new cases have been reported now for nine days.

Kept Quiet.

The NEWS REVIEW last evening did not publish the statement that several saloons had been raided in the city on Sunday, because the police were anxious to keep the matter from the public until they had secured the required testimony. This paper had the information as the officers to whom the promise was made well know.

The River Falling.

The river has raised so that the Olive can run, although it is falling a little today. Rains in the mountains have done much for the river recently, and Pittsburgh men coal are fondly hoping that they will get some of the thousands of tons now in the harbor off for southern markets before the winter is over.

Like a Windfall.

Four years ago Doctor Block, then a resident of Buffalo, brought suit against a man in that city because of

the bungling manner in which he had handled the broken leg of a horse owned by the doctor. He had long since thought that the case had dropped out of sight, but today he learned that it had been settled for \$115, and a check would be sent him for that amount.

RETRIBUTION.

The Boy Was Raced When Thrown From His Horse.

A man in a buggy and a boy on horseback were racing on Monroe street at a late hour this afternoon, when the boy was thrown, and falling against a building was painfully bruised and hurt. The man in the buggy seemed to think it a great joke, but the manner in which the boy pulled himself together proved that he had the worst of the bargain. They should have been arrested for racing.

Will Settle at Akron.

President Hughes, of the Brotherhood, has learned that the Akron strike will in all probability soon be settled. The plant is still running, as though nothing had happened, owing to the fact that there was little or nothing for the pressers to do when the trouble occurred. The dispute was, according to President Hughes' idea, of no great importance.

A New Manager.

Frank Swaney was today introducing Mr. Martin, the new local manager of the telephone company, to business men and his other friends. Mr. Martin has been in the business a long time, and will doubtless be very successful in Liverpool and this vicinity. Mr. Swaney goes to Johnstown, Pa., where he has been promoted to an excellent position.

This Is Interesting.

It is said that the raid on the saloon of Harry Hughes on Sunday will result in prosecution for trespass. Hughes swears that he was not selling liquor, nor was his saloon open. When asked today by a reporter what he was going to do about it, he replied that he had nothing to say. It is known, however, that he is seriously considering the matter.

A Good Performance.

The Ideals drew a good house to the Grand last evening, and presented an excellent performance. The company is made up of good people, and there is no reason why they should not be greeted by a full house every night this week. They have the plays and the performers, and are capable of great things.

Will Not Go to School.

Truant Officer Beardmore placed a charge in the court of Squire Morley today against a lad named Prudence, living on Second street. The boy's father will be called to answer.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Potts drug store. Regular size 50c and \$1.

An Enjoyable Dance.

The Waverly club gave an enjoyable dance in Bradshaw hall last night, attended by about 25 couples. A novel sight was on two occasions when the lancers was danced without the calling of figures and was passed through by four sets without a break.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, aiding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50 cent per bottle at T. L. Pott's drug store.

More Litigation.

Frank Foutts has brought suit against Mrs. Charlotte Foutts and Mrs. Charles Hawkins for \$93. J. Mears & Sons have sued I. N. Crable for \$128 and \$163.45, the amounts of two notes. It will be heard Thursday.

A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhoea remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. Twenty-five and 50 cent bottles for sale by Alvin H. Bulger, Sixth and West Market streets, druggists.

Id Fashioned

—compound cathartic pills, "blue pills," "calomel" or other mercurial preparations, should not be used in these days of enlightened medical science, when it is so easy to get a purely vegetable pill in concentrated form, sugar-coated, in glass vials, at any store where medicines are kept.

Dr. Pierce was first to introduce a Little Pill to the American people. Many have imitated them, but none have approached his "Pleasant Pellets" in true worth, or value, for all laxative and cathartic purposes.

Once Used, they are Always in Favor.

Assist Nature a little now and then, with a gentle, cleansing laxative, thereby removing offending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, fistula and maladies too numerous to mention.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity, with sufferers from habitual constipation, piles and indigestion.

They absolutely cure sick headache, biliousness, constipation, coated tongue, poor appetite, dyspepsia and kindred derangements of the stomach, liver and bowels.

A free sample of the "Pellets," (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card.

Address for free sample, WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.

TO MEET TOMORROW

Republicans Will Organize a Permanent Club.

PAPER BEING LIBERALLY SIGNED

It Will Be a Branch of the National League, and Some of the Most Earnest Workers in Town Are Numbered Among the Members.

There will be organized at city hall tomorrow night what is expected to be one of the crack political organizations of Columbiana county and eastern Ohio.

The movement was started some time ago, and has been moving along in a quiet way until a few days ago, when membership papers were placed in the hands of several prominent Republicans, who have since been using them to good advantage. As they passed around the city, good names have been added until a gathering of representative Republicans is expected at the meeting tomorrow evening. While it has been impossible to see all the members of the party in the city, all are invited to be present and take an active part in the work of organization. The object of the club will be to advocate, promote and maintain the principles of Republicanism as enunciated by the Republican party; to direct and interest in politics those who have been more or less indifferent to their political duties; to encourage attendance at the caucus or primary meetings, in order that honest and capable men may be nominated; to guard and defend the purity of the ballot box, and to perform such other work as may best conserve the interest of the Republican party nationally and locally, thereby exerting the most potent influence in behalf of good government. The club can not be used in any way to further the interest of any candidate for office previous to nomination, but shall reserve its force to be exerted in behalf of all candidates nominated by Republican conventions. The league to which it will be attached is a power already in the country, and since its organization eight years ago, has grown and waxed strong in power and influence. There are many such organizations in Ohio, and few cities with the population of Liverpool are without their Republican club. Whether permanent quarters will be obtained is one of the questions to be decided, but that course will likely be adopted since the national organization urges it strongly in every instance. It is founded on the rights and duties of the individual citizen, the solid corner stone of Republicanism, and aims to enlist all Republican forces as auxiliaries of the regular party organization. Its chief business, the members have decided, is to elect and not nominate candidates. There should be a large attendance of Republicans at city hall tomorrow evening.

DO YOU KNOW HIM?

A Liverpool Man Said To Be Lost In Pittsburgh.

The Pittsburgh Times of this morning has the following:

"H. C. Waudby, a well known East Liverpool brick manufacturer, disappeared in Pittsburgh, August 26, and nothing has been heard of him since. He always carried large sums of money with him. August 26 he had \$700. Of this, \$150 was deposited in the Dollar Savings bank. After making the bank deposit he called at the office of H. Patterson & Co., at 541 Liberty street. Mr. Patterson says when Waudby entered his office he left two men standing outside. He said they were friends from East Liverpool, who he was going to show about the city. His friends and relatives think he has been foully dealt with by his supposed friends. He was never known to drink; was much attached to his family. Waudby was about 5 feet 10 inches in height, weighed about 170 pounds, and had dark brown hair. He has a wife and two children in East Liverpool."

A reporter called at the boarding house conducted on Broadway by Mrs. Waudby today, and there learned the story.

"Until a few months ago we lived happily together," she said. "My husband was in the brick business, and a kinder, better man to his family could not be found. He was dissatisfied with Liverpool, and wanted to get away saying that he would not spend another winter here. Then he began corresponding with a nursery firm, but afterward carried on negotiations with a man who advertises business houses with a stereopticon, and went to Pittsburgh to see him. He was there two days, but came home and said all arrangements were made, and they were to settle in Toledo. Then he sold off his effects, and had \$700 when he went back again. That was

two weeks ago, and we have heard nothing of him. He was in the best of spirits when he left, and certainly did not intend to stay away. We thought he might have gone to England, but inquiries developed that no man by that name had taken passage from Pittsburgh. We came here two years ago from Hastings, Pa., and have always lived happily. Any of the boarders will tell you that my husband is not a drinking man, nor did he ill treat us. He was always kind and considerate. I think he has been foully dealt with for the sake of that money."

SILVER LAKE QUARTET.

The Sweet Singers and Orator Hopkins Attract a Large Audience.

The Methodist Protestant church was crowded last night with an appreciative audience and standing room was at a premium. The service of song was simply delightful and was applauded to the echo. The Silver Lake quartet are famous the land over, and they won new laurels last evening. Orator Hopkins is a pleasing, earnest talker and carries his audience with him. He was frequently applauded last night. He backs his opinions with facts, argument, reason and good common sense, and does not deal out superabundant abuse upon the heads of those who differ with him from a political standpoint. Reverend Taggart opened the meeting with an appropriate prayer and pronounced the benediction at the close of the service. The pastor, Reverend Whitehead, made a neat and happy speech preparatory to taking up the evening "offering," no admission being charged. Service will be held again tonight and you will have another opportunity to hear the sweet singers. You will do well to go early, if you desire a seat.

THEY RAN AWAY.

Two Liverpool Boys Are Lost In Pittsburgh.

Dr. J. C. Taggart was in Pittsburgh yesterday searching for the children of Mr. and Mrs. Edward Hill, deceased, who are lost. They are two boys, Edward, aged 10, and James, seven, and were taken to the United Presbyterian orphan asylum, in Allegheny, a few weeks ago. Last Tuesday, instead of going to the public school as usual, they ran off, since which time nothing has been heard of them. They were homesick when first taken to the asylum, but the matron believed they had recovered from that, and was surprised when she learned that they had not been in school. A thorough search was made for the boys, but they have not yet been found. It is thought they would try to make their way to this city or the home of their aunt in Wellsville, and a careful watch is being kept.

A RUINED TIRE.

Charley Larkins Ran Over a Bottle in the Street.

Charley Larkins, known to almost every one in the city, was the maddest man in town last night, and if he had laid his hands on the people who throw glass in the streets there would have been bleeding forms for the coroner to consider. Having purchased a new set of tires, and put them on his wheel, he went for a spin, but had covered only a few blocks when he ran over a bottle, and now he will not ride any more until he gets more tires. Both tires are cut to pieces, and a total wreck. The people who throw glass in the street should remember there is an ordinance against it, and it is only a question of time until some one is arrested and punished. If all wheelmen would report glass when seen on the streets, the practice would be stopped.

A HAPPY COUNCILMAN.

Mr. Challis Has a Phenomenal Cherry Tree.

Councilman Challis has in his yard on Bank street a natural curiosity in the form of a cherry tree that refuses to realize that summer is over. In spite of the fact that it has born one crop of cherries this year, and good ones they were, according to the councilman, it has come out again in full bloom, the flowers being as pretty blossoms as were ever seen on a fruit tree. A number of other fruit trees in the city have blossomed the past few days, among them being several peach trees.

THE WIFE OF A JUDGE.

Mrs. Reed, of West Point, Died Last Night.

Mrs. Reed, the widow of Judge Reed, who was the first probate judge of the county, died last night at her home near West Point. The lady has been ill for some time, and her death has been expected for weeks. She was a good Christian woman, highly intellectual, and known to persons in every part of the county.

THEY ALL COME BACK

Methodists Will Have the Same Ministers.

A LONG CONFERENCE ENDED

It Required a Great Deal of Time to Make the Selections, but They Are Finally Settled Upon—Wellsville Gets Sylvester Burt—The Rest of the District.

After a long struggle with the list, Bishop Vincent and his cabinet decided last night upon the appointments for the East Ohio conference of the Methodist Episcopal church.

There were more ministers than charges in the conference, and the cabinet had much trouble in properly locating the different applicants. Young men seemed to be in demand everywhere, and the older ministers were put to one side, but a close scrutiny of the list and a careful consideration of the facts in every case caused the publication of the following:

Bloomington, D. W. Knight; Bridgeport, W. H. Dickerson; Bridgeport circuit, R. S. Strahl; Brilliant, to be supplied; East Liverpool, First church, J. M. Huston; Second church, R. F. Sears; East Springfield, T. H. Taylor; Empire, S. B. Salmon; Hammondsville, J. R. Young; Harlem Springs, J. W. Micher; Irondale, W. J. Powell; Martin's Ferry, J. W. Robins; Mingo, J. N. Barrett; Richmond, J. S. Eaton; Salineville, Finley and Thompson, P. C. Anderson; First church, Lewis Paine; Hamline, R. B. Pope; Toronto, J. S. Secrest; Warrenton, J. C. Hollingshead; Wellsville, Sylvester Burt; Minersville, J. C. Smith.

This returns Doctor Huston to the First church and Reverend Sears to the Second church of this city. The gentlemen are popular with their congregations, and will doubtless make a strong effort to increase their respective charges in membership and finances. Doctor Stewart will continue as the presiding elder with his post-office at Steubenville, and the other presiding elders chosen this year are Dr. J. E. Fisher, of the Akron district; Dr. I. H. Rader, New Philadelphia district; Dr. A. N. Croft, Youngstown district. Doctor Locke goes to Cadiz.

"In the making up of the districts of the conference," said Doctor Huston, who returned today from Canton, "there was a most strange proceeding. Owing to the dissatisfaction with the presiding elder of the Cleveland district because of his impaired hearing some of the churches of that district were thrown into the Akron district, so these presiding elders will cross each other's paths many times. It is a question with many whether the work will be sacrificed for the man, and it is predicted that this arrangement will reflect upon the wisdom of the presiding bishop, the hero of Chautauqua."

"It is an exceptional thing in Methodism, something I never heard of before, this going into a district, and taking the best appointments. Taken all in all, we were very much pleased with our treatment in Canton. The only trouble was that there were more men than places. The bishop came with a lot of men in his pocket, but some of them did not get in. Doctor Bennett had hard work making it, but eventually he was given the First church in Akron. Reverend Edmunds, of New Castle, wanted to get into this district but he got no appointment. They offered Reverend Sears a charge in New York near Chautauqua, but he decided to return to East End. When the report of the Woman's Foreign Missionary society was read at the conference it affirmed that the great work of the society need not interfere with the work of the pastor, but I arose and told them that I could affirm more for when I had failed in collection the society of this church came to my rescue after subscribing over \$600."

A LONG SEPARATION.

Mrs. Curby and Her Brother Had Not Met for 60 Years.

After the afternoon train had passed out of the passenger station yesterday afternoon, an old man stood on the platform and looked about as though he expected some one to walk up and shake hands. He was approached by a reporter, and said that his name was John Stoddard, and his home in Wilmington, Del. He had come here for the purpose of visiting his sister, Mrs. Elizabeth Curby, who he has not seen for 60 years. At the residence of Mrs. Curby on College street, last evening, it was learned that although almost overcome with joy after seeing each other after so long a separation, Mr. Stoddard was able to recognize his sister. They are only surviving members of a family of 11 children, and Mrs. Curby has been living in

Ohio for 60 years, having come to this city in 1862. She is a widow, and the mother of Pierce Curby, the well known manager of the Akron pottery. About 30 years ago, Mr. Stoddard saw his nephew in the east, and will go and see him at Akron before returning to Wilmington. The gentleman is an employee of the Pennsylvania company, having been one of its faithful servants for many years.

A DISAPPOINTMENT.

Miss McIntosh Will Not Sing in This City.

When it was announced that Miss McIntosh, the celebrated singer who has many friends in this city, would come from Europe and sing at Carnegie hall in Allegheny, the Ladies' auxiliary of the Young Men's Christian association made every effort to have the lady sing at a concert they would conduct in this city. They cherished the fond hope for a time, but now comes the word that Miss McIntosh will only be in the city a short time as the guest of Mr. and Mrs. Homer Laughlin, and her engagements so crowd upon each other that it will be impossible for her to sing in public. The disappointment is as much for the general public as for the ladies of the auxiliary.

THE HAIR FLEW.

Two Women Settle a Difficulty in True Feminine Style.

Peake's point society was rent asunder the other day by the most sensational happening it has known in numerous months, the affair being a battle between two women well known in that part of town. The cause of the quarrel is unknown, but the fight was in plain sight of the public, and hair was scattered far and wide, while loud cuffs and knocks sounded in the air. The men quarreled, but seemingly preferred to let the women do the hard work. The battle extended over several hours, the women pausing occasionally to rest.

NOT NEAR TOWN.

Fugitive Murray Says the Fight Will be in Ten Days.

Peter Murray, who is training hard for his coming fight with Ed Riley, told a reporter that he believed he could whip the other man with ease, and the fight would surely take place within 10 days. He refused to divulge the place where the fight is to be pulled off, but stated that it would not be in this vicinity. If the pugilist did not allow his care to get the better of his veracity in that assertion, there are numerous young sports in town who can prepare themselves for a disappointment as they have all arranged or think they have to see the fight.

AFTER MONEY.

A Heavy Damage Suit Filed in Common Pleas.

Special to the NEWS REVIEW.

LISBON, Sept. 24.—An accident at Stewart's saw mill near Long's crossing last spring was the cause of a damage suit filed today. John Detwiler lost an arm at the mill because he was sent into the pit, below the saw, to remove a chain. He slipped, and throwing his arm against the rapidly revolving saw was crippled for life. W. and M. Walters who operated the mill ordered him to do the dangerous work, and he sued them for \$10,000 because the saw was allowed to run while he was in the place of danger.

NO TRACE.

The Baggage of the Dead Stranger Is No Identification.

Trustee Lloyd has made a careful examination of the baggage of Mrs. White, who died at the Hotel Grand yesterday morning, but can find nothing new regarding her. He thinks it will require a month before he can hear from the names found among her papers. The funeral took place yesterday afternoon, and was attended by some of the kind women who did all they could while Mrs. White lived. They were taken to the cemetery in a carriage provided by Liveryman Frank Dickey. Doctor Lee conducted the services.

ANOTHER TRIAL.

The McGregor Case Has Another Whirl Tomorrow.

Special to NEWS REVIEW.

LISBON, Sept. 24.—Circuit court convenes here this afternoon, and the only matter of importance to be considered is the application for a new trial for Jesse McGregor on the ground that there was not sufficient evidence before the court that sent him to Columbus for life. Attorney Anderson, of Youngstown, will be here this evening, and the motion will be argued tomorrow morning.

POLICE ARE STILL BUSY

A Few Drunks on the Mayor's Docket.

SOME SORRY SUNDAY SALOONISTS

Also Appear Before the Chief Magistrate and Tell Their Tales—Sullivan Will Stand Trial, But Webber Paid \$50 and Costs.

Police court is filled with echoes of the big business done on Saturday and Sunday, but Mayor Gilbert is having trouble in clearing his docket because of new cases being added.

Saloonist Webber called around and wisely pleaded guilty to the charge of keeping open on Sunday paying for the act \$50 and costs.

An East End man who gave the name of Gill caused a commotion in the upper part of the city this morning, and was eventually landed at city hall. Like other men who have met the same fate he was engaged in abusing his wife because he was drunk enough to be disorderly. Officer Meador was called, and sent in a patrol alarm. He was allowed to regain his senses before being heard.

Freeman French is still behind the bars, and the mayor thinks he will keep him there until he can secure a few more victims for the works. An elaborate calculation made by the mayor this morning shows that French has 116 days to serve at Canton, provided he cannot secure the \$50 which he was fined yesterday, and, with good behavior, he can be released in 110 days. The prospect is not a cheerful one for French, as his friends manifest no disposition to lend a helping hand. His intimacy with Birdie Pinkerton is a standing joke at city hall, as the woman will not stay away from the place. The pair had their pictures taken the other day, and Birdie proudly exhibited one until an officer ordered her to behave herself under penalty of heavy sentence to Canton. She was at the station to see French depart this morning, and waited patiently for his appearance.

Friends of Charles McGovern called on the mayor last evening and paying \$10 had the man released thus saving him a second time from the works. McGovern is a good workman and makes many friends when he is sober.

Arthur Hancock, a Smoky Row saloonist, declared to Mayor Gilbert last night that he was not guilty of selling liquor on Sunday. The date of hearing has not yet been set, but it will be this week.

Sidney Burroughs the youth who was arrested on Franklin street is still in jail, no one having appeared to settle that little account of \$7.50 which he owes.

Saloonist Sullivan, of lower Sixth street, was among the victims of the police Sunday. He is charged with selling to a good sized crowd whose thirst caused them to prevail upon him to great length. He appeared at city hall last night and pleaded not guilty, and the hearing was set for this afternoon. It was postponed, however, until Saturday morning at 9 o'clock when there will no doubt be an interesting trial. The charge is brought under the state law.

Solicitor Clark is preparing for the rush of business which the saloonists furnish by their connection with the authorities.

H. Smith was acting in a disorderly manner in the East End last night, and was captured today. He paid a fine of \$5.00.

Cliff Dawson pleaded guilty and was fined \$15. He will go to the workhouse unless some one appears with cash to spare. Joe Keenan decided to plead not guilty, and is in jail awaiting a trial.

NOT GUILTY.

That Is What Grant Fastbinder Told the Mayor.

Grant Fastbinder, who cut Rit Meador with a razor in Poker Anderson's hotel on Sunday afternoon, was brought from New Cumberland by Chief Gill yesterday afternoon and placed in jail. He signified that he wanted J. H. Brookes to defend him, and the two held a long conference at city hall this morning. Fastbinder was arraigned a short time afterward, and declared that he was not guilty of cutting with intent to kill. In default of bail he was sent down the hall to await the time set for hearing. Doctor Taylor says that Meador is much better this afternoon, although still very sore.

Thomas Won.

Thomas Humphries won his case against Patrick Costelow, although the pile of gold he expected to receive with the verdict did not come. When Squire Morley rendered his decision he gave him \$17.31.

WHEN Thanksgiving comes

the Democrats will have little to be thankful for, if present indications count for anything.

THE exhibition which Governor

Waite gave in Canton is ample proof that he has more wheels in his head than some people have in their threshing machines.

CUBA can never be free

without the aid of Uncle Sam, and if President Cleveland ever expects to aid the unhappy island he can select no better time than the present.

If the Pittsburgh officials

do not soon manifest a disposition to investigate and cease talking, the public will believe that they fear the police force and its influence.

No wonder the English laugh

at American politics. Boss Croker spends the summer in Britain, comes home to pull a few wires in a convention, and announces that he will return to England within a few weeks.

If Cleveland waits until congress

meets before revising his financial policy, he can rest assured that the country will be lifted from the depths—Republicans are too patriotic to let the nation suffer, even though it makes good campaign material.

CAMPAIGN METHODS.

A special from Van Wert to the Toledo Blade throws some light on the campaign methods being used by Colonel Brice and his gang to gain him victory next November:

"Tried and trusted men who have been in the employ of the road for years have been 'let out' on pretenses to give room for men who could assist Brice. It was not noted until now that with scarcely an exception the men are all Republicans. Among the men 'let out' during the past two months are: Conductor Charles Welsh, a Republican, who has been in the employ of the road for five years; Hugh Allen, baggageman, employed for three years; Elmer Conn, bridge constructor, a Republican, been employed for three or four years, and 'there are others.' Brice's attempt to steal the state by these schemes will be met with bitterness by the people here. They will rise in their might this fall and stamp in the earth such corrupt and detestable political methods."

This is in line with the charge made by the Blade last week that Brice would work his railroads for all that was in them, and his employees would be expected to vote for him to a man.

CLAY CAN'T BE FOUND.

Ironton's Defaulting County Ex-Treasurer Missing.

HIS NON-ARREST A SENSATION.

Much Surprise at the Action of the County Commissioners in Letting Him Get Away—He Went East Thursday Over the Norfolk and Western.

IRONTON, O., Sept. 24.—Ex-County Treasurer, M. G. Clay, who has been found a defaulter for \$28,000 is not to be found. He left the city Thursday night over the Norfolk and Western going east, and since then nothing has been heard of him.

The action of the county commissioners in not causing his arrest has created a sensation.

FOR DEEP WATERWAYS.

Delegates in Cleveland For the Convention Opening This Afternoon.

CLEVELAND, Sept. 24.—Many prominent members of the International Deep Waterways association are here this morning to attend the annual convention, which commences this afternoon. Hon. James Fisher of Manitoba, a member of the Provincial parliament and an ardent advocate of deep waterways and reciprocity, in speaking of the deep water and canal agitation said:

"We have on this continent the finest body of inland waters in the world, and I believe that there should be built such deep waterways as will enable us to freely enjoy our natural advantages. I believe that the two great nations should unite in constructing these waterways, which will be of immense benefit to both the United States and Canada."

Cleveland Banks Won't Help.

CLEVELAND, Sept. 24.—The proposition of the Central National bank that national banks of this city turn \$1,000,000 in gold into the national treasury and receive in return legal tender, has been considered by the Clearing House association. It was decided not to take any such action on the ground that there did not appear to be any real necessity for it and that it might arouse apprehension among people not thoroughly familiar with the financial situation.

Schoch's Victim Still Alive.

DAYTON, O., Sept. 24.—John W. Peacock, who was shot by William Schoch, a discharged employee, is still living, and although his life is hanging in the balance, increased hopes are entertained for his recovery. The fact that the ball passed entirely through his body obviated the necessity for probing, but the fact that his right lung is pierced makes his recovery exceedingly doubtful. Schoch manifests entire unconcern as to the fate of his victim.

Whiteley Plant to Be Rehabilitated.

SPRINGFIELD, O., Sept. 24.—A mammoth deal in the agricultural implement interests of Springfield is about to be made, which will be as important to this city as the capitalization of the Procter and Gamble company was to Cincinnati. This will be the re-establishing of the vast Whiteley interests, with a capital of \$2,300,000, of which over \$2,000,000 will be British gold.

Cleveland Wants Her Lake Front.

CLEVELAND, Sept. 24.—The city has taken steps to recover possession of the lake front, which is held by the railroads. At the meeting of the board of control a resolution was adopted directing that a number of streets which are supposed to extend to the lake, but do not, be opened to the water's edge. This, it is expected, will bring the matter to a speedy issue in the courts.

Got Money by False Pretenses.

CLEVELAND, Sept. 24.—Arthur S. Burrell, aged 20, has been arrested on the charge of obtaining money by false pretenses. He rented a small store, put in a few cases of goods and advertised the concern as the Grocers' Supply company. He succeeded in obtaining a quantity of material, none of which he paid for, and also issued a number of checks which are not good.

Miss Vanderbilt's Duke.

NIAGARA FALLS, Sept. 24.—The Duke of Marlborough, who is to marry Miss Consuelo Vanderbilt, has arrived here in the private car of Sir Charles Rivers Wilson.

SMALL OHIO HAPPENINGS.

An unknown person at Marion has a mania for poisoning dogs.

The schools at Marion dismissed half a day on account of hot weather there.

Ada Lawson of Springfield took a dose of poison on account of a quarrel with her lover and died.

An athletic club has been organized at Marion, composed of the high school pupils, with a complete outfit for gymnastics.

Harry Turner, aged 25, residing with his mother in Hamilton, returned home drunk, and it is alleged struck his mother in the face with his fist, knocking her down. He was arrested.

Pat Higgins, a tramp, supposed to be from Louisville, was found unconscious near the Hocking Valley railroad bridge, at Columbus. He had a deep wound in his head, which it is supposed was inflicted by a blow from a piece of railroad iron.

William Lang and Albert Bauman, two young men of Columbus, are under arrest, charged with assault to kill. They nearly ran over Jacob Seigel, and when he remonstrated it is alleged they jumped from their buggy and stoned him. His skull was fractured and it is thought he will die.

George Zimmerman of Florence street, Springfield, while at Warder, Bushnell & Gleason's, fell from a ladder, and striking a bar of iron broke three ribs and sustained, it is feared, fatal internal injuries. He was carried home and a physician called, who said Zimmerman would have a hard time to pull through.

OUR POSTOFFICE AFFAIRS.

Maxwell Gives Some Interesting Information in His Annual Report.

WASHINGTON, Sept. 24.—The annual report of Fourth Assistant Postmaster General Maxwell shows that the number of postoffices in operation in the United States on July 30, 1895, was 70,964. Of these 65,550 were fourth-class offices and 3,504 presidential, being an increase over the last fiscal year of 259. During the year 2,432 postoffices were established and 2,163 discontinued. The total number of appointments for the year was 13,142, and the total number of cases acted upon 17,588. The number of changes made on account of deaths of postmasters was 769.

During the year the greatest increase in the number of postoffices was in Oklahoma—69. Virginia follows with 66, the Indian Territory with 60. Nineteen states show a decrease in the number of postoffices, the greatest losses occurring in Kansas—55, South Carolina losing 44, and Iowa and West Virginia 38 each. Fifteen other states show a loss of from 2 to 37 each.

The total number of cases disposed of by the division of postoffice inspectors during the past year aggregated 96,951, an increase of 2,581. The number of complaints received relating to registered mail was 5,280. Only 15 complaints were received of carelessness in the handling of this matter by postal employees. The total number of complaints affecting the registered mail received during the year was less by 646 than the number for the previous fiscal year: 13,933,856 pieces of registered mail were handled with the loss of only one piece in every 21,305. Fifty-six thousand five hundred and forty-six complaints affecting the ordinary mail were received during the year: 31,849 referring to letters and 27,097 to packages. This shows an increase of 2,669 over last year.

A gratifying decrease in the number of postoffice burglaries is noted, but highway robbery of the mails has increased somewhat. Train robbers have grown more bold and now do not hesitate to ply their vocation in the older states and near large cities, one of the most daring of last year's train robberies, the Aquia Creek case, having been committed with a few miles of the city of Washington.

During the year there were 14,844 complaints received affecting foreign mail matter. These comprised 9,435 cases relating to registered matter, 5,294 pertaining to ordinary matter and 205 of a miscellaneous character.

During the year there were 2,240 arrests for offenses against the postal laws, of which number 175 were postmasters, 40 assistant postmasters, 36 clerks in postoffices, 12 railway postal clerks, 37 lettercarriers, 52 mailcarriers, and 28 were employed in minor positions in the postal service; 435 postoffice burglars were arrested, while the remaining 1,433 cases were those of other persons not connected with the postal service, who were arrested for various offenses against the postal laws.

The convention will last three days. One general object is the formation of a united open organization for the furtherance of the Irish cause. Those who issued the call for the convention claim it is not contemplated that physical force should be used or advised in the attainment of the independency of the Irish people as a nation until such means be deemed absolutely necessary and the object in view be probable of attainment. It is believed the convention will serve to revive interest and infuse new life into the Irish cause both in America and Great Britain.

A BLOODY BATTLE.

Spanish Soldiers Badly Whipped by Cuban Patriots.

OVER 300 SPANIARDS KILLED.

The Cuban Loss Was 40 Men Killed and Wounded—Rebels Used Dynamite Bombs With Terrible Effect—Mass Elected President of the New Republic.

NEW YORK, Sept. 24.—News of a battle in which the Spanish were defeated by the Cubans and lost 300 men has been received by President Palma. It came in a letter written Sept. 14, by Pedro Rovira, a Spanish private who deserted to the Cuban ranks at Pera Lugo, when Campos was defeated. In a later engagement Rovira was captured by the Spanish, court-martialed and sentenced to receive 40 lashes and to be shot. The sentence was carried out while Rovira was shouting for Cuban liberty. The Spaniards were greatly incensed against him, as he had killed three of their men before being captured.

The letter says that on Aug. 13 Macao heard that 1,200 men, one battalion corps, a squadron of cavalry with two pieces of artillery, were marching on him. Macao mounted his horse, and from the mountain of Santa Maria viewed the enemy's position. He ordered eight of his men to keep up firing from ambush to deceive the Spaniards, and meanwhile he had word sent to his brother, General Antonio Macao. General Jose Macao fortified his few men in a plantation house near a hospital. He wished to guard the right side of the road leading to Bacallano, which skirted the hospital. The Spaniards were slowly closing in on him when General Cebreo and a Cuban column came to his relief and made the enemy evacuate their position.

A hot engagement followed in which the Spaniards regained their position, but were unable to hold it long, as General Antonio Macao suddenly appeared on the scene, and with Cebreo and Colonel Mueninit, succeeded in wresting it from Canale and Garrido, who commanded the Spaniards. The Spaniards made a brilliant charge and for the third time managed to secure the position, but in the engagement the Spanish captain of artillery was mortally wounded and they slowly withdrew, the Cubans fighting them back. This battle lasted from 5 o'clock a. m. to 1 o'clock p. m. It was resumed in the early afternoon.

General Antonio Macao cleverly turned the Spanish column and gained the pass of Macao. He then massed his troops before the Spanish vanguard. While General Jose Macao got his men in the rear.

A very desperate encounter ensued. It raged until the dawn of the next day, Sept. 1. The Spaniards then commenced to retreat until they reached the Iguala field, where they were able to use their cavalry, which was impossible on the mountains of Santa Maria. They did not gain any advantage, however, and after burning their provisions they continued to retreat to Montañas, which place they entered in scattered groups. The Cubans had no cavalry, but made effective use of dynamite bombs, which, the letter states, struck terror to the enemy.

In the engagement the Cubans lost 40 men wounded and killed. The Spaniards lost over 300 men, 40 horses and a large store of provisions and munitions of war.

A Tampa special says: Letters received by prominent Cuban leaders here state that on the 10th inst. a constitutional convention was held at Najaya, at which Bartola Masso was elected president of the Cuban republic. Marquis of Santa Lucia, minister of interior; Tomas Estrada Palma, representative of the government in the exterior; and Maximo Gomez, general-in-chief.

THE A. P. A. IN POLITICS

Vice President Jackson Boasts of Its Growing Power.

WILL CONTROL NEXT ELECTION.

One of the Great Parties Must Knock Under to the Organization—Any Bid For the Catholic Vote, He Says, Means the Order's Opposition.

KANSAS CITY, Sept. 24.—Judge J. H. Jackson of Fort Worth, Tex., national vice president of the American Protective association, is in this city. When asked about the condition of the A. P. A. he said:

"The order is growing rapidly in numbers. We have in round numbers 3,000,000 members. In California we have 200,000, and in the older states farther east the number of members we have is enormous and growing daily."

Continuing, Mr. Jackson said:

"We are getting ready to surprise Missourians. Missouri is well organized, but we would rather show you by our votes than tell you how big a vote we have."

"Will the order take part in the next national campaign?"

"It certainly will do so and it will go in to win. On Oct. 14 there will be a convention at St. Louis, attended by 96 delegates, two from each state and some of four officers and at that time a very strong committee will be appointed."

"It will be the duty of that committee to lay before each political party our principles and explain to each our position. The committee will present our platform. We will demand recognition, put each party on record and then determine what we shall do. You can depend on this: We won't vote with a party that condemns our principles and we won't support any party that makes a bid for the Catholic vote. When they have acted as we wish we shall act in union."

"Do you expect, then, to control the next election?"

"We do. The party we vote with will win. We are not going in as a political party, but we have principles to carry out, and it is to advance them that we shall vote."

"We will have a hand in the elections in every state in the Union. Our method of dealing with the parties in each state will be much the same as our method in city politics."

Consuls Under Civil Service.

WASHINGTON, Sept. 24.—The president, by an executive order, has extended the civil service system in a modified form to all consular officers whose compensation directly and through fees range from \$1,000 to \$2,500. This will include about one half of the total number of consuls who receive more than \$1,000. This change has been gained by reviving in substance an old order of 1873. Vacancies in the service will be filled hereafter by transfer or promotion, by appointment of qualified persons formerly in the employ of the state department and by appointment of persons selected by the president after passing a non-competitive examination.

The Pittsburg coal exchange has chosen 25 delegates to the river convention to be held in Cincinnati next month. Is Liverpool to be represented?

"How is the early closing movement?" was asked a prominent business man last night. "If the clerks can stand it and the other merchants don't object I guess I won't," was the answer.

Orchards along the river are hanging full of apples, and farmers are patiently waiting for a rise in the river so they can ship them to market. They say they cannot afford to use the railroad, as fruit is so low in price.

Reverend Green, Frank White and daughter, Miss Pearl Seagriff, Miss Lou Hanley, Mrs. Chambers and Edie Ramsey made up a party of East End people who are attending the Christian Endeavor convention at Richmond.

East End people are expressing indignation in unmeasured terms because they have heard that an aged member of the community will be taken to the infirmary, when members of his own family are able to care for him.

Jim Penny entertained a large crowd of people at the corner of Sixth and West Market with a speech on the American flag. Jim had his usual jag with him and was hurried out of the way when the police were seen coming.

Two school boys helped themselves liberally to apples in a wagon on Fifth street last evening, and one of them was caught by the driver, who amused the few witnesses by cutting the youngster several times with the long lash of his whip.

Residents of the Calcutta road were annoyed beyond measure last night by the howlings and howlings of a few drunks in a buggy. It required a long time for the pair to drive up the hill, and as they howled at every step, they made night hideous.

Melville Flowers, of Broadway, met with a painful mishap yesterday afternoon when he was so unfortunate as to step on a sharp nail. The nail pierced his shoe and ran into his foot fully an inch, causing a wound that will give him enough trouble for the next few days.

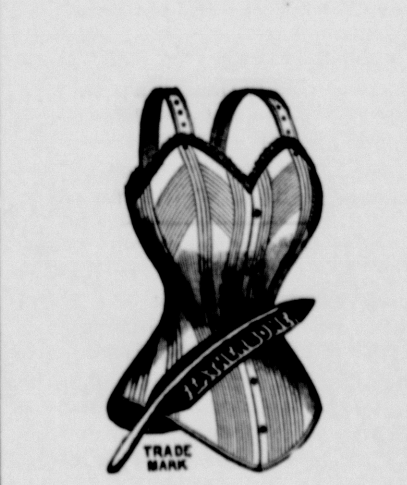

The cold wave came as promised, but not with the severity prophesied by the men who make the weather. There were few if any overcoats seen on the streets of the city last night, but the mercury ceased its flight heavenward, and again came down to earth, making life bearable.

The Cleveland and Pittsburgh are making an extensive fill between the lower depot and McGregor's mill in Wellsville, and intend putting a track there before winter comes. The impression is gaining ground in Wellsville that the company are gobbling up the river front at a rapid rate.

Colonel and Mrs. John N. Taylor returned last evening from the south, where they have been attending the dedication exercises at Chickamauga and seeing the Atlanta exposition. They were in the party of Governor McKinley, and throughout the entire trip saw the distinguished Ohioan treated almost as though he was even now the president.

Mr. Cochran, of Appollo, Pa., was in town yesterday, having been in Wellsville, where he called on Wolf & Whitacre, the inventors of the electric separator. The gentleman is interested in a company now being formed in Appollo, and if they can secure the right for all of Pennsylvania they will manufacture the separator and sell it in that state. The concern is also talking of starting a white granite pottery.

What are Featherbone Corsets?

How are they different from other corsets? These are questions frequently asked us. To explain this correctly we must first state that the Featherbone corset people have a patent process of transforming the quills of feathers into an article for boning corsets that has no equal. It is not affected by dampness or perspiration; is soft and pliable. You cannot break it. It will stand washing and takes readily to your form. The corset needs no breaking in, and with each one sold the manufacturers give a written guarantee that the corset will be satisfactory or your money will be refunded.

Featherbone Corset Waists.

No corset waist sold will equal it for fit and wear. It's the perfect shape and gives your form a perfect contour. It is not a high-priced waist. We have them with the buttoned front or with the steels, in both drab and white from 18s to 30s in sizes. Ask to see these corsets when in the store.

Thompson's Glove Fitting Corsets.

We keep a full line of these goods from \$1.00 per pair up to \$2.00, including their popular K. and L. brands at \$1.00 and \$1.25 per pair. We carry nothing but the best makes of corsets and have built up a big corset trade by always selling reliable goods.

ATLANTIC TEA CO.

HE WHIPPED HIS WIFE

And Then Brutally Knocked Her Down.

HIS HORSE WAS IN IT TOO

Residents of McKinnon Addition Think They Have a Good Case For the Humane Society—The Drunken Husband May Get a Dose of His Own Medicine.

Unless there is a radical change in the actions of a man residing in McKinnon addition, there will likely be a case of tar and feathers to chronicle in this town within the next few weeks.

Responsible residents of that portion of the city say that they have among them a man who must change his mode of living. Frequently he goes home in a beastly state of intoxication and nothing affords him more pleasure than to abuse his wife and ill treat her in a brutal manner. Last night he went home in his usual drunken way, and accusing his wife of some trivial offense, raised his hand and struck her a blow so hard that she staggered and fell to the floor. Not satisfied with that he got a shoe and beat her until the poor woman almost fainted from pain and fright. Then he went to the stable, and bringing out his horse began to belabor it with a heavy whip. At length he tired of this amusement and returned to the house, where he behaved himself for the remainder of the evening. Some of the best citizens in that part of town, in speaking of the matter to a reporter, said last night that they would give the fellow another chance; he has been warned, and if the Humane society could not act in the matter, he would receive a call from some of his neighbors.

Welmer Won.

The case of Robert Welmer against Gaston & Wilson dragged its weary length at city hall yesterday evening, and brought out many facts about milk.

Welmer is a dairyman at Kensington, and he sued to recover the value of a shipment of milk, the defendants refusing to pay because the fluid was sour when it reached them. He claimed that he kept it packed in ice until it was shipped, but the thunder might have soured it, whereupon Attorney Brooks wanted to know if it thundered every day in Kensington, and the memory of the dairyman forsook him. He had several witnesses to strengthen his side of the case, and the defense fought hard for victory. Squire Rose and the jury sat on the case, and a verdict was not returned until after midnight when the plaintiff got judgment for \$47.62.

The replevin case of J. N. Baxter against L. T. Conant has been indefinitely continued in the court of Squire Morley because of the illness of the plaintiff. It involves the equipment of a barber shop.

A Knowing Dog.

A well known doctor is now of the opinion that some dogs know more than some people. When he came to town a dog belonging to Rev. Foutts made friends with him, and has loitered about his office ever since. The other day the dog came in the shop dragging on one front foot and whining with pain while a trail of blood showed that the paw had been almost severed. The knowing dog put the injured paw upon the doctor's knee as if to say "Here's a case for you," and his wounds were attended to.

Only a Few Cases.

Wheeling is breathing easier these days and all the Ohio river towns that have been in danger need fear smallpox no longer. Doctor Ogden is possessed of the information today that there are only three cases in Wheeling. A dozen houses are quarantined, but the people are all convalescent, and the danger is over. No new cases have been reported now for nine days.

Kept Quiet.

The NEWS REVIEW last evening did not publish the statement that several saloons had been raided in the city on Sunday, because the police were anxious to keep the matter from the public until they had secured the required testimony. This paper had the information as the officers to whom the promise was made well know.

The River Falling.

The river has raised so that the Olvette can run, although it is falling a little today. Rains in the mountains have done much for the river recently, and Pittsburg men coal are fondly hoping that they will get some of the thousands of tons now in the harbor off for southern markets before the winter is over.

Like a Windfall.

Four years ago Doctor Block, then a resident of Buffalo, brought suit against a man in that city because of

the bungling manner in which he had handled the broken leg of a horse owned by the doctor. He had long since thought that the case had dropped out of sight, but today he learned that it had been settled for \$115, and a check would be sent him for that amount.

RETRIBUTION.

The Boy Was Racing When Thrown From His Horse.

A man in a buggy and a boy on horseback were racing on Monroe street, at a late hour this afternoon, when the boy was thrown, and falling against a building was painfully bruised and hurt. The man in the buggy seemed to think it a great joke, but the manner in which the boy pulled himself together proved that he had the worst of the bargain. They should have been arrested for racing.

Will Settle at Akron.

President Hughes, of the Brotherhood, has learned that the Akron strike will in all probability soon be settled. The plant is still running, as though nothing had happened, owing to the fact that there was little or nothing for the pressers to do when the trouble occurred. The dispute was, according to President Hughes' idea, of no great importance.

A New Manager.

Frank Swaney was today introducing Mr. Martin, the new local manager of the telephone company, to business men and his other friends. Mr. Martin has been in the business a long time, and will doubtless be very successful in Liverpool and this vicinity. Mr. Swaney goes to Johnstown, Pa., where he has been promoted to an excellent position.

This Is Interesting.

It is said that the raid on the saloon of Harry Hughes on Sunday will result in prosecution for trespass. Hughes swears that he was not selling liquor, nor was his saloon open. When asked today by a reporter what he was going to do about it, he replied that he had nothing to say. It is known, however, that he is seriously considering the matter.

A Good Performance.

The Ideals drew a good house to the Grand last evening, and presented an excellent performance. The company is made up of good people, and there is no reason why they should not be greeted by a full house every night this week. They have the plays and the performers, and are capable of great things.

Will Not Go to School.

Truant Officer Beardmore placed a charge in the court of Squire Morley today against a lad named Prudence, living on Second street. The boy's father will be called to answer.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption, and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Potts drug store. Regular size 50c and \$1.

An Enjoyable Dance.

The Waverly club gave an enjoyable dance in Bradshaw hall last night, attended by about 25 couples. A novel sight was on two occasions when the lancers was danced without the calling of figures and was passed through by four sets without a break.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, aiding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50 cent per bottle at T. L. Pott's drug store.

More Litigation.

Frank Foutts has brought suit against Mrs. Charlotte Foutts and Mrs. Charles Hawkins for \$93.

J. Mears & Sons have sued I. N. Crable for \$128 and \$163.45, the amounts of two notes. It will be heard Thursday.

A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhoea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhoea remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. Twenty-five and 50 cent bottles for sale by Alvin H. Bulger, Sixth and West Market streets, druggists.

Old Fashioned

—compound cathartic pills, "Pleasant Pellets," cathartic or other medicinal preparations, should not be used in these days of enlightened medical science, when it is so easy to get a purely vegetable pill in concentrated form, sugar-coated, in glass vials, at any store where medicines are kept.

Dr. Pierce was first to introduce a Little Pill to the American people. Many have imitated them, but none have approached his "Pleasant Pellets" in true worth, or value, for all laxative and cathartic purposes.

Once Used, they are Always in Favor.

Assist Nature a little now and then, with a gentle, cleansing laxative, thereby removing offending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, fistula and maladies too numerous to mention.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity, with sufferers from habitual constipation, piles and indigestion.

They absolutely cure sick headache, biliousness, constipation, coated tongue, poor appetite, dyspepsia and kindred derangements of the stomach, liver and bowels.

A free sample of the "Pellets," (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card.

Address for free sample, WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.
